and thereupon the amount thereof becomes due and owing by the person bound thereby as a debt due the Crown in right of Ontario.

3. Section 13 of Ontario Regulation 98/71 is amended by adding thereto the following subsections:

THE MINING ACT

O. Reg. 546/71.
Exploratory Licences and Production
Leases for Natural Gas in Lake Erie.
Made—December 22nd, 1971.
Filed—December 29th, 1971.

REGULATION MADE UNDER
THE MINING ACT

EXPLORATORY LICENCES AND
PRODUCTION LEASES FOR NATURAL
GAS IN LAKE ERIE

EXPLORATORY LICENCE

- 1.—(1) The Minister may issue an exploratory licence in Form 1 authorizing the holder to explore for natural gas on Crown lands under the waters of Lake Erie.
- (2) The licence shall be issued only upon application in writing to the Minister.
- (3) The application shall be accompanied by,
- (a) a description of the area for which the application is made; and
- (b) a statement showing the financial ability of the applicant to undertake the exploratory work required by this Regulation.

(4) The Minister may,

- (a) consider applications from more than one applicant in respect of a specific area or areas and may request each applicant to submit a detailed plan of proposed development;
- (b) offer for sale by tender the right to obtain a licence or licences where more than one application has been received for a specific area or areas; and
- (c) issue a licence or licences to the applicant who, in his opinion, will develop the area or areas most advantageously. O. Reg. 546/71, s. 1.

2. The licence shall describe the area in accordance with the grid system, as shown on the plan filed in the office of the Registrar of Regulations at Toronto as No. 1440. O. Reg. 546/71, s. 2.

3. No licences shall be issued for partial tracts except where such tracts are adjacent to the International Boundary. O. Reg. 546/71, s. 3.

4. Applications for licences will be considered quarterly and the date for receipt of such applications will close on the first day of the months of January, April, July and October and such licences, when issued, shall be dated accordingly. O. Reg. 546/71, s. 4.

5. Where a request is made in writing to have licences issued other than quarterly as prescribed by section 4, the Minister may consider such applications and where such consideration is given, the Minister shall offer for sale by tender, the right to obtain a licence or licences for a specific area or areas and shall give public notice of the sale, specifying the area or areas and the method of tendering. O. Reg. 546/71, s. 5.

6. An exploratory licence shall be issued for a term not to exceed ten years and shall have an anniversary date of January 1st. O. Reg. 546/71, s. 6.

7. The annual rental for an exploratory licence is \$94.50 for each whole tract and 15 cents per acre for each partial tract payable in advance but during the first year of the licence where such period is less than twelve months, the rental shall be determined on a *pro-rata* basis. O. Reg. 546/71, s. 7.

8.—(1) The licensee shall expend for each tract or fraction thereof,

- (a) during the first year, the sum of at least \$500, but where such period is less than twelve months the expenditure shall be determined on a *pro-rata* basis;
- (b) during the second year, the sum of at least \$500;

(c) during the third year, the sum of at least \$750; and

(d) for the remainder of the term of the licence, the sum of at least \$1,000 per year,

in geophysical exploration or drilling in the area specified in the licence.

(2) Where the Minister consents thereto, partial tracts may be combined for the purpose of expenditures on the basis of 630 acres being equivalent to one tract.

(3) Where the Minister consents thereto, a licensee may surrender his licence in whole or in part at any time upon giving written notice thereof to the Minister at least thirty days before the surrender is to take effect.

(4) Where a surrender is made and accepted under subsection 3, the expenditure for the year of the term in which the surrender is made shall be that required for the area described in the licence prior to the surrender, but the expenditure for any subsequent year or years of the term shall be based on the remaining area. O. Reg. 546/71, s. 8.

9. Where, during the final year of the term of the licence, the licensee is prevented by weather, water or other conditions acceptable to the Minister, from carrying out the geophysical exploration or drilling required by this Regulation, the Minister may, upon application in writing within thirty days of the end of the final year of the term of the licence, extend the licence for a period not exceeding six months and this extended period shall be considered part of the final year of the term. O. Reg. 546/71, s. 9.

10.—(1) Where, during any year of the term of the licence, the licensee expends a sum of money greater than that required under this Regulation for that year, he may credit the excess amount against the sum of money required to be expended in any other year or years of the term of the licence.

(2) Where a licensee who is the holder of more than one licence for areas under the same body of water expends during one year a sum of money in respect of the area under one licence greater than that required under this Regulation, he may credit the excess amount to one or more of the other licences under the same body of water, provided such other licence or licences have been issued prior to or in the year of the carrying out of the work. O. Reg. 546/71, s. 10.

11. Where separate holders of separate licences for areas under the same body of water jointly engage in geophysical exploration or drilling, each licensee may credit the amount actually expended by him to any or all of the licences held by him under the same body of water. O. Reg. 546/71, s. 11.

12.—(1) Where the sum of money expended by a licensee in respect of a licence in any year of the term of the licence is less than the minimum required by section 8 for the purposes therein, the licensee shall deposit with the Minister, on or before the 1st day of January of the following year, a sum of money equal to the difference between the amount expended and the minimum required to be expended.

(2) Amounts deposited with the Minister shall be in cash or in the form of,

(a) bearer bonds having a current value of at least 90 per cent of their face value of,

(i) the Province of Ontario,

(ii) the Hydro Electric Power Commission of Ontario, or

(iii) the Government of Canada; or

(b) a letter of credit guaranteed by a chartered bank of Canada. O. Reg. 546/71, s. 12.

13.—(1) The sums of money expended by a licensee in the year following the year in respect of which an amount has been deposited under section 12 shall be applied firstly to the credit of that preceding year and any balance of money expended that exceeds the amount deposited shall be applied to the credit of the current year.

(2) Where, during the year following the year in respect of which an amount has been deposited under section 12, the licensee expends a sum equal to or greater than the total of the minimum required for that year and the amount deposited, the amount deposited shall be refunded to the licensee.

(3) Where, during the year following the year in respect of which an amount has been deposited under section 12, the licensee expends a sum less than the total of the minimum required for that year and the amount deposited, the licensee shall deposit with the Minister such additional sum of money as is required to make the amount on deposit with the Minister equal to the difference between the amount expended and the minimum amount required to be expended by section 8. O. Reg. 546/71, s. 13.

14.—(1) Where an amount has been deposited with the Minister in respect of a licence, and the licensee,

(a) fails to deposit any further amounts in the amount and within the times required by this Regulation; or

(b) fails to expend the minimum amounts required by section 8 within the term or extended term of the licence,

that part of the amount deposited that equals the difference between the minimum required to be expended in the year for which the deposit was made, and the amount expended for that year, is forfeit to the Crown in right of Ontario.

(2) Where part of an amount deposited with the Minister is forfeited, the balance shall be refunded to the licensee within thirty days after the date of the forfeiture.

(3) Upon forfeiture of an amount deposited with the Minister, the licence, in respect of which the deposit was made, shall be cancelled. O. Reg. 546/71, s. 14.

15. Where a licensee is in default of one or more licences and such licence or licences have been cancelled or surrendered, the Minister may cancel, in whole or in part, any or all other licences held by the licensee where, in his opinion, the licensee is unable to satisfactorily develop the area or areas contained in the licence or licences. O. Reg. 546/71, s. 15.

16.—(1) Every licensee shall submit to the Minister reports, maps and drilling logs in duplicate, covering all geological and geophysical examinations, drilling or other exploratory or development work for which he is requesting expenditure credits, within six months of completion, except those documents submitted in accordance with *The Petroleum Resources Act, 1971* and the regulations thereunder.

(2) Except with the consent of the licensee, material submitted under subsection 1 shall not be made public for one year from the date of completion of the work or for such longer period as the Minister, at his discretion, may direct. O. Reg. 546/71, s. 16.

17.—(1) On or before the 1st day of March in each year, the licensee shall submit a sworn statement to the Minister,

(a) detailing the amount and manner of all expenditures made by him in geophysical, geological or other exploratory work as prescribed in section 8; and

(b) giving full particulars of the work and operations carried on by him,

during the previous calendar year on the area described in the licence, but where the Minister consents thereto, the licensee may include expenditures made by him but not filed on the previous statement because of the unavailability of records.

(2) Where the Minister is not satisfied by the sworn statement of the licensee that he has expended the sums required by section 8 for which the statement has been submitted, the Minister may send a notice by mail to the licensee at his latest address recorded in the Department, requiring him to submit

such further details as are in the opinion of the Minister necessary to prove that the expenditure complies with the requirements of section 8 and if the licensee is still unable to satisfy the Minister that the expenditures have been in compliance with the requirements of section 8, the Minister may disallow the expenditures or any part of them.

(3) No expenditures other than those detailed in the sworn statement referred to in subsection 1 and allowed by the Minister shall be credited to the minimum required to be expended under section 8. O. Reg. 546/71, s. 17.

18. While a licence is in force, the licensee has the sole and exclusive right to drill for natural gas on the area described in the licence. O. Reg. 546/71, s. 18.

19. Where drilling in any of the waters referred to in subsection 1 of section 1 has been suspended by a competent authority, or the licensee is prevented by weather, water, or other condition acceptable to the Minister and the suspension or other condition is not annually recurring, the Minister may reduce the rental and amounts required to be expended under section 8 for the year during which the suspension or condition occurs. O. Reg. 546/71, s. 19.

PRODUCTION LEASE

20.—(1) Upon application to the Minister, a licensee shall be granted a lease in Form 2 to produce natural gas if the Minister is satisfied that a well drilled on the area described in the licence, or in a licence for a contiguous area held by the same licensee, has indicated the presence of natural gas.

(2) The area to be included in a production lease shall be selected by the licensee from the area described in his exploratory licence and shall not be composed of unit areas of less than one tract except where the Minister grants approval, or as provided for in section 3.

(3) Where the Minister is not satisfied that the area to be included in a production lease as selected by the licensee has been proven to reasonably contain natural gas, he may decrease the area accordingly.

(4) Every application for a production lease shall be accompanied by,

- (a) the rent for the first year of the term; and
- (b) a description of the area to be included in the production lease.

(5) The annual rental for a production lease is \$315 for each whole tract and 50 cents per acre for each partial tract, payable in advance, but during the first year of the lease where such period is less than twelve months, the rental shall be determined on a *pro rata* basis.

(6) A production lease shall be for a term not to exceed ten years and shall have an anniversary date of January 1st.

(7) Where production of natural gas is obtained and production continues beyond the life of the lease, the Minister shall renew the production lease or portions thereof for successive periods of not more than ten years each.

(8) Royalty is payable to the Treasurer of Ontario on natural gas marketed off the lease at the rate of 10 per cent of the prevailing field price or \$0.035 per thousand cubic feet, whichever is greater.

(9) The amount of royalty payable in any year shall be reduced by,

- (a) the amount of rental paid for that year; and
- (b) the amount of allowable pipeline construction credit,

up to a maximum of 50 per cent of the royalty payable.

(10) In calculating the amount of royalty payable, the production of each lessee for each pool shall be considered and the amount of rental and pipeline construction credit shall be credited on the basis of pool production.

(11) Where production from more than one pool is commingled under authority of *The Petroleum Resources Act, 1971*, the Minister may approve the calculation of the amount of royalty payable on the basis of more than one pool but such calculations shall be subject to approval by the Minister.

(12) The rate of allowable pipeline construction credit shall be based on the total construction cost for each pipeline as approved by the Minister and subject to clause *b* of subsection 9, shall not exceed 25 per cent of the total cost in the first year, 20 per cent in the second year, 10 per cent in the third, fourth and fifth years and 5 per cent in the sixth, seventh, eighth, ninth and tenth years but the Minister may allow credits not used in one year to be carried forward to successive years.

(13) Detailed plans and cost estimates for all pipeline construction shall be submitted to the Minister in duplicate and shall be approved by the Minister prior to commencing such construction.

(14) On or before the 1st day of March in each year, the lessee shall submit a sworn statement to the Minister, detailing the amount of all pipeline construction expenditures made by him during the previous calendar year.

(15) Where the Minister is not satisfied by the sworn statement of the lessee, the Minister may send a notice by mail to the lessee at his latest address recorded in the Department, requiring him

to submit such further details as are in the opinion of the Minister necessary to establish the allowable pipeline construction credit.

(16) The Minister may disallow the expenditures or any part of them.

(17) No expenditures other than those detailed in the sworn statement referred to in subsection 14 and allowed by the Minister shall be credited in calculating the amount of royalty payable.

(18) Where production of natural gas is restricted or limited under *The Petroleum Resources Act, 1971*, the regulations thereunder or any order of the Ontario Energy Board, the Minister may reduce or suspend the rental payable by the lessee in such manner and to such extent as he considers proper.

(19) The lessee shall,

(a) keep a record of all natural gas produced, marketed or otherwise disposed of each year under the production leases held by him; and

(b) on or before the 1st day of March in each year, submit to the Minister a sworn statement showing the cost of pipeline construction and the quantity and actual meter value to the lessee of all gas marketed during the previous calendar year, together with a remittance for any royalty payable for that period, as provided for by subsection 10.

(20) Where a well is drilled in an area contained in a production lease and where it is acceptable to the Minister, the lessee or lessees may submit the actual amount expended by him in the drilling of such a well as an expenditure for licences, as required by section 8.

(21) A lessee may, on thirty days prior written notice to the Minister, surrender the whole or any part of the area included in a production lease provided that the area being surrendered complies with section 3 and all wells are plugged or bonded as provided for by *The Petroleum Resources Act, 1971* and regulations thereunder.

(22) Where a surrender has been made under subsection 21, the annual rental for the year in which the surrender is made shall be based on the area included in the lease at the commencement of that year, but the annual rental for ensuing years shall be based on the area being retained. O. Reg. 546/71, s. 20.

21. Where a production lease is terminated under section 23, the Minister may offer for sale by tender, the right to obtain such lease or leases in whole or in part and shall give public notice of the sale, specifying the area or areas and the method of tendering. O. Reg. 546/71, s. 21.

22.—(1) Where oil is encountered while drilling for natural gas, the area included in the licence that has been proven to reasonably contain oil shall be surrendered by the licensee, but the licensee shall have the first right for a production lease if a lease to produce oil is granted.

(2) Notwithstanding subsection 1, the licensee may, with the consent of the Minister, retain the area required to be surrendered, for the purpose of exploring for natural gas at a shallower depth to that at which the oil is encountered. O. Reg. 546/71, s. 22.

GENERAL

23. If default is made,

(a) in the performance or observance of the terms and conditions of an exploratory licence or of the Act or this Regulation; or

(b) by a lessee in payment of rent or royalties, or both or in the performance or observance of the terms and conditions of the production lease or of the Act or this Regulation,

and the default is not remedied within thirty days after notice has been delivered or sent by registered mail to the holder of the exploration licence or production lease as the case may be, at his latest address recorded with the Department, setting forth the default and calling upon him to remedy the default,

(c) in the case of an exploration licence, the Minister may forthwith cancel the licence; or

(d) in the case of a production lease, the Minister may forthwith declare the lease terminated. O. Reg. 546/71, s. 23.

24. The holder of a licence or a lease shall carry out all exploration, drilling and production operations in accordance with *The Petroleum Resources Act, 1971* and the regulations thereunder and any orders made by the Ontario Energy Board. O. Reg. 546/71, s. 24.

25.—(1) The holder of a licence may, with consent of the Minister, transfer or assign to any other person, the rights conferred under the licence with respect to the whole or any part of the acreage covered by the licence provided that in no case shall the holder of the licence retain any interest in that portion of the licence affected by the transfer or assignment.

(2) The holder of a lease may, with the consent of the Minister, transfer or assign to any other person the rights conferred under the lease with respect to the whole or any part of the acreage covered by the lease. O. Reg. 546/71, s. 25.

26. Where any uncertainty or dispute arises respecting the position of any boundary, the Minister may require the licensee or lessee to make and file a cadastral survey acceptable to the Minister showing the boundary in respect of which the uncertainty or dispute has arisen. O. Reg. 546/71, s. 26.

27. Regulation 603 of Revised Regulations of Ontario, 1970 is revoked. O. Reg. 546/71, s. 27.

Treasurer's Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Queen's Printer and Publisher for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Department of Lands and Forests whether or not the land or any part can be purchased or leased from the Department. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

CORPORATION OF THE COUNTY OF RENFREW

To WIT:

BY VIRTUE OF A WARRANT issued by the Warden under the seal of the Corporation of the County of Renfrew, and to me directed, bearing date of the 4th day of January, 1972, commanding me to levy upon and sell the lands mentioned in the following list for arrears of taxes and costs due thereon, I hereby give notice that unless such arrears of taxes and costs are sooner paid, I shall sell by public auction the said land at the County Administration Building, in the City of Pembroke, on Saturday, the 27th day of May, 1972, at 10.00 o'clock in the forenoon. All of the said lands are patented.

If an adjourned sale is necessary it will be held at the same place and hour the 5th day of June, 1972.

E. M. FRASER,
Treasurer.

9. In each of the statements referred to in sections 2 to 8, the provincial corporation shall show in the case of each statement the corresponding amounts for the last preceding financial period of the corporation, if any, and with respect to the notes for the current year the corresponding amounts for the last preceding financial period, if any. O. Reg. 38/72, s. 9.

10. Notwithstanding the provisions of this Regulation, it is not necessary to state in a financial statement any matter that in all the circumstances is of relative insignificance. O. Reg. 38/72, s. 10.

11. A provincial corporation may apply to the Registrar or assistant registrar for permission to omit from the corporation's financial statement any information required by this Regulation, and the Registrar of Loan and Trust Corporations may permit such omission on such terms and conditions as he may impose where he is satisfied that in the circumstances the disclosure of such information would be unduly detrimental to the interests of the corporation or contrary to the public interest. O. Reg. 38/72, s. 11.

12. This Regulation comes into force on the 1st day of October, 1972. O. Reg. 38/72, s. 12.

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Queen's Printer and Publisher for publication in THE ONTARIO GAZETTE.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Department of Lands and Forests whether or not the land or any part can be purchased or leased from the Department. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

PART 6

EDUCATION MILL RATE SUBSIDY

19.—(1) In this Part,

- (a) "isolate board" has the same meaning as in Part 5;

- (b) "post-subsidy break-even mill rate for 1969 for a predecessor-board area" means the mill rate determined for the predecessor-board area in the same manner as the post-subsidy break-even mill rate for 1969 for a municipality is determined, except that the assessment, presubsidy break-even requirement, payment in lieu of taxes and subsidy, that are used in the determination, are in respect of the predecessor-board area;

- (c) "predecessor-board area" for public-, secondary- or separate-school purposes means a municipality or part thereof that in the year 1968,

- (i) was within the area of jurisdiction of one public-, secondary- or separate-school board, as the case may be, or

- (ii) was not within the area of jurisdiction of a public-, secondary- or separate-school board, as the case may be;

- (d) "subsidizable expenditure" means revenue fund expenditure in 1972 that is not in excess of the sum of,

- (i) the recognized ordinary expenditure for 1972,

- (ii) the extraordinary expenditure for 1972 that is not in excess of the sum of,

- a. recognized extraordinary expenditure for 1972,
- b. the portion of debt charges payable in 1972 that is not included in recognized extraordinary expenditure, and
- c. the lesser of,

I. the sum of unapproved net transportation expenditure, unrecognized expenditure for board, lodging and weekly transportation of pupils, and unapproved net capital expenditure from the revenue fund, and

II. the product of the expenditure weighting factor for 1972 for the board, the average daily enrolment for 1972 of resident-internal pupils and, in the case of an elementary school board, \$10 or, in the case of a secondary-school board, \$15, and

(i) the portion of the excess of,

a. the subsidizable requirement of the board,

over,

b. the interest on adjusted deficit that is chargeable in 1972 to the predecessor-board areas within the jurisdiction of the board,

that is apportioned to the predecessor-board area for 1972, less the portion of the payment in lieu of taxes for 1972 for the municipality that is apportioned to the predecessor-board area, the apportionment in each case being made, in

the case of a divisional board, in the same manner as the sum required by the divisional board is apportioned under Ontario Regulation 99/72, and, in the case of a separate-school board, in the manner determined by the separate-school board, and

(ii) the interest on adjusted deficit that is chargeable to the predecessor-board area for 1972.

(2) In the event of a disagreement in respect of the interpretation of a term defined in subsection 1, the interpretation of the Minister shall govern. O. Reg. 98/72, s. 19.

20.—(1) Except in respect of a defined city or a part thereof, a board, other than an isolate board or a board on tax-exempt land, shall be paid on behalf of each predecessor-board area that is within its area of jurisdiction, a subsidy equal to the excess of,

(a) the subsidizable requirement for the predecessor-board area,

over,

(b) the sum calculated at the mill rate that is the lesser of,

(i) the sum of,

b. the quotient obtained by dividing 200 by the assessment equalization factor for 1971 for the municipality in which the predecessor-board area is located, and

(ii) the sum of,

a. the post-subsidy break-even mill rate for 1969 for the municipality in which the predecessor-board area is located, adjusted by the Department where the general level of assessment in the municipality has been raised subsequent to 1969, and

b. the quotient obtained by dividing 100 by the assessment equalization factor for

1971 for the municipality in which the predecessor-board area is located,

upon the assessment for 1972 in the predecessor-board area.

(2) Where a municipality or a predecessor-board area did not have a post-subsidy break-even mill rate for 1969, or where the post-subsidy break-even mill rate for 1969 for a municipality or a predecessor-board area was less than the quotient obtained by dividing 100 by the assessment equalization factor for 1971 for the municipality, such quotient shall be used in clause *b* of subsection 1 in lieu of the post-subsidy break-even mill rate for 1969 for the municipality or for the predecessor-board area, as the case may be.

(3) Notwithstanding subsection 2, in determining under subsection 1 the subsidy for a predecessor-board area for separate-school purposes in which, in 1968, property was rateable for public school purposes but not for separate-school purposes, the post-subsidy break-even mill rate for 1969 for public-school purposes shall be used in clause *b* of subsection 1 in lieu of the post-subsidy break-even mill rate for 1969 for separate-school purposes.

(4) Notwithstanding subsection 2, in determining under subsection 1 the subsidy for a predecessor-board area for public-school purposes in which, in 1968, property was rateable for separate-school purposes but not for public-school purposes, the post-subsidy break-even mill rate for 1969 for separate-school purposes shall be used in clause *b* of subsection 1 in lieu of the post-subsidy break-even mill rate for 1969 for public-school purposes. O. Reg. 98/72, s. 20.

21. The grant payable under this Part shall be applied by the board to reduce the levy from the predecessor-board area on whose behalf it is payable. O. Reg. 98/72, s. 21.

PART 7

ASSISTANCE IN RESPECT OF ADJUSTED DEFICITS

22.—(1) A divisional board of education or a county or district combined separate-school board

shall be paid in 1972 a sum equal to $33\frac{1}{3}$ per cent of the adjusted deficits, as at the 31st day of December, 1968, of the predecessor boards, excluding from such adjusted deficits adjustments to achieve uniformity in accounting for instructional salaries, and such sum shall be applied by the board to reduce the adjusted deficits chargeable to the municipalities or parts comprising the jurisdictions of the predecessor boards.

(2) In addition to the sum payable under subsection 1, a divisional board of education or a county or district combined separate-school board shall be paid in 1972 on behalf of each predecessor board whose financial statements for 1968 did not include 40 per cent of the instructional salaries for the school year 1968-69, a sum equal to the excess of 40 per cent of the instructional salaries for the school-year 1968-69 over the amount that was included in the financial statements of the board for 1968 in respect of the salaries of such teachers for the school-year 1968-1969 but such sum shall be reduced by the portion of the grant and subsidy received by the board in 1969, 1970 and 1971, by reason of including in the financial statements for 1969, 1970 and 1971 more than 100 per cent of the cost to the board of the services of such teachers, including temporary teachers, as the Minister may determine for the year or years, as the case may be.

(3) For the purposes of this Part,

- (a) the amounts of the adjusted deficits referred to in subsection 1 and any alterations thereto shall be as determined by the Minister; and
- (b) predecessor board means a board that was dissolved on the 31st day of December, 1968, and whose area became part of the jurisdiction of the divisional board of education or of the county or district combined separate-school board. O. Reg. 98/72, s. 22.

REGULATION MADE UNDER
THE SECONDARY SCHOOLS AND BOARDS
OF EDUCATION ACT

APPORTIONMENT 1972 REQUISITIONS

1. In this Regulation,

(a) “adjusted deficit” means the deficit for public school purposes or for secondary school purposes, as the case may be, of a board that was dissolved on the 31st day of December, 1968, adjusted to include reserve

(b) “assessment” for a year means the sum of,

- (i) the residential and farm assessment as defined in clause b of section 74 of *The Schools Administration Act*, and
- (ii) the quotient obtained by dividing the commercial assessment as defined in clause a of section 74 of *The Schools Administration Act*, by 0.9,

that is rateable for public school purposes or for secondary school purposes, as the case may be, except that reference to the last revised assessment roll in clauses a and b of the said section 74 shall, for the purposes of this Regulation, be deemed to be reference to the assessment roll on which taxes are levied in the year;

(c) “assessment equalization factor for 1971” means, for a municipality or a locality, the equalization factor in column 2 set opposite the name of the municipality or locality in column 1 of Schedule B to Ontario Regulation 98/72;

(d) “equalized assessment for a municipality or locality” means the sum, in respect of the municipality or locality, of,

- (i) the assessment for 1971, and
- (ii) the equivalent assessment,

adjusted by the assessment equalization factor for 1971 for the municipality or locality;

(e) “equivalent assessment” means, in respect of a municipality or locality, the amount that, if levied upon at the rate that is the sum of,

- (i) the post-subsidy break-even mill rate for 1969 for public school purposes or for secondary school purposes, as the case may be, adjusted by the Department where the general level of assessment in the municipality or locality has been raised subsequent to 1969, and
- (ii) the quotient obtained by dividing 100 by the assessment equalization factor for 1971,

in respect of the municipality or locality, would yield a sum equal to the payment in lieu of taxes for 1971 for public school purposes or for secondary school purposes, as the case may be, for the municipality or locality;

(f) "interest on adjusted deficit" means 7 per cent of $66\frac{2}{3}$ per cent of the adjusted deficit as at the 31st day of December, 1968;

(i) "payment in lieu of taxes" for a year means, in respect of a municipality or locality, the excess of that portion of the sum required by the divisional board for the year for public school purposes or for secondary school purposes, as the case may be, that is apportioned to the municipality or locality, over the sum that, exclusive of adjustments in respect of any previous year, is required to be raised by taxation for such purposes in the municipality or locality;

(j) "post-subsidy break-even mill rate" for a year for public school purposes or for secondary school purposes, as the case may be, means, in respect of a municipality or locality, the mill rate that, if applied to the assessment for such year that is rateable for such purposes in the municipality or locality, would have provided the pre-subsidy break-even requirement for the municipality or locality in such year, less the sum of,

for such year in respect of the municipality or locality;

(k) "predecessor-board area" means for public school purposes or for secondary school purposes,

(i) a municipality or locality, or

(l) "presubsidy break-even requirement for a municipality or locality" means the portion of the presubsidy break-even requirement of a board for public school purposes or for secondary school purposes, as the case may be, that is apportioned to the municipality or locality;

(m) "presubsidy break-even requirement of a board" means the sum of the amounts that, if there were no subsidy payable on behalf of any predecessor-board area within the school division, would have been requisitioned for public school purposes or for secondary school purposes from the municipalities and localities in the school division to provide as at the end of the year neither an increase nor a decrease in the surplus, deficit or reserves for public school purposes or for secondary school purposes, as the case may be, accumulated by the divisional board as at the beginning of the year;

Treasurer's Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Queen's Printer and Publisher for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Department of Lands and Forests whether or not the land or any part can be purchased or leased from the Department. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.
